## BLM Product Photography

### **BLM Arrangement**

I've decided to offer free product photography for Black-owned businesses for as long as I can manage. My TFP (trade for print) arrangements usually involve donating the item(s) in exchange for my services but I will forgo this component to support the cause.

Email me your business name and a link to the product page(s) for each item so I can keep track of which items belong to which businesses. Please email images of your items if you do not have product pages available online and a link to whatever online presence you have (Facebook, IG, etc.). I will photograph items in the order they are received and send your product image(s) in this same email.

### **Images Provided**

I will provide (1) studio image per item with a (5) item limit per business. The photos will be provided to you with the Artifex Imaging watermark, added to the Artifex Imaging website, and linked directly to your product page. I will leave a review for each item on any site(s) you designate. I will also create a post with your product images to help promote your business and Artifex Imaging's BLM product photography arrangement.

### **Freight**

- Local businesses: Safe, no-contact porch drop off is available to you at any time. Text me at 661-369-6539 to let me know that you've dropped an item off so we can bring it inside.

- Non-Local businesses: I ask that you cover the expense of the shipping. The photography services will still be at no cost and I will provide (2) bonus images as a thank you for covering freight!
