

Artifex Imaging

TFP Product Photography

TFP (Trade for Print) Arrangement

The term TFP refers to trading products or services with a photographer in exchange for the photos of those products or services. In this case, the “prints” are digital photos.

Images Provided

All items traded will be photographed. The photos will be provided to you with the Artifex Imaging watermark, added to the Artifex Imaging website, and linked directly to your product page. I will leave a review for each item traded on any site(s) you designate. The original purchase price of the item(s) traded will determine the number and type of images provided by Artifex Imaging.

- (1) studio image per item for items up to \$25 original purchase price.
- (2) studio images or (1) scenic image per item for items up to \$50 original purchase price.
- (2) studio images and (2) scenic images per item for items up to \$100 original purchase price.
- (1) studio image, (1) scenic image, and (1) modeled image per item for items greater than \$100 original purchase price. Shoots for modeled images will be scheduled once a COVID-19 vaccine has been implemented.

Freight

- Local businesses: Safe, no-contact porch drop off is available to you at any time. Text me at 661-369-6539 to let me know that you’ve dropped an item off so we can bring it inside.
- Non-Local businesses: I ask that you cover the expense of the shipping. The photography services will still be at no cost and I will provide (1) bonus image as a thank you for covering freight!
